Professor Graham Wright SRN, RMN, RCNT, RNT, FBCS CITP

- Masters in Philosophy
- Masters in Business Administration
- Certificate in Education
- Diploma in Nursing

- Member Institute of Learning and Teaching
- Fellow of the British Computer Society
- Chartered IT Professional
- Member of Sigma Theta Tau

Professor Wright has been involved in health informatics since 1980, when he co-founded the Open Software Library with David McKendrick. Enjoying a dual career in consultancy and academia over the last decade, he is known for his work on the Rainbow series, Health Information education and evaluation studies. He is the programme director for the MSc. Health Informatics (Organisational Development) at The University of Winchester and the Director of CHIRAD.

He is the General Manager (part-time) of the Hawthorn Medical Centre (Swindon) and a part-time GP tutor Swindon, Kennett and NW Wiltshire.

His research includes a review of the NHS IM&T Strategy, evaluation of clinical systems, development of criteria for risk assessment of systems implementation.

Graham's external activities include:

- assistant editor of ITIN
- Co-chair of IMIA open source WG
- UK representative to IMIA-NI
- CHIRAD representative to IMIA general assembly
- executive member BCS NSG (ex Chair)
- Treasurer of BCS Hif
- editorial board member for Journal of Primary Care Informatics (Online)
- editorial board member for Journal of Biomathematics
- Director of Open Software Library
